11/22/93

Dear Mr. Weisberg,

On the 30th anniversary of our national tragedy, I feel especially compelled to write to you.

I've enclosed various newspaper clippings, editorials, plus a reprinted edition of the 11/22/63 N.Y. Daily News. I felt these items would be of interest to you.

I have recently finished reading Posner's book, Case Closed. In my opinion, Posner is an expert at stealing the work of other authors by very subtle rewordings of their work. This way he can avoid direct quotes and claim the work is his. He likes to twist and distort facts to fit his wishful scenario of Oswald acting alone. His seating of Connally in the limo at the time of the shots is wrong, in my opinion. As my busy schedule permits, I am going to draft a chapter by chapter analysis of Case Closed to highlight all it's mistakes and distortions. Also, seeing Posner being interviewed on t.v. is especially entertaining, as it shows his true character. Posner speaks of knowing Ruby's motives for killing Oswald as if he (Posner) knew Ruby personally and had access to the inner workings of Ruby's mind. It is sad that an arrogant weasal like Posner can say these things on t.v., but that is the price we pay for having freedom of speech.

I have recently had a correspondence with Penn Jones Jr. I've enclosed a copy of his letter to me. In my letter to him, I mentioned what you wrote me about Posner and the 724 copies he made from your files which he then presents as being his own work. As you can see in the letter Penn feels that Posner is a commissioned government agent. If you could comment on Penn's letter and his theories concerning 9 assassins, commissioned agents, plus the Oklahoma training site for the assassins, I'd be grateful. My own thinking leads me to feel that while Penn's intentions may be good, his theories are out in left field. I plan on reading The Forgive My Grief vols. But I get the distinct impression from his letter,that he is a true American patriot that sincerely loves freedom and democracy.

I have also read the vulgar things that H. Livingstone says of you in his new book, "Killing the Truth." Could you please comment on this entire situation? Are the things he says of you and H.L. Hunt true? What does it all mean? I know nothing of this topic and would like very much to hear your viewpoint. Also, what is the significance of the book, "Farewell America"? I know nothing of this book and if you could give a brief explanation of it, I'd be grateful. In High Treason 2, Livingstone called you the "grandfather of assassination research",yet now he writes of a total disdain for you and your work. Isn't it possible for people to disagree on this topic without slandering each other? After reading Livingstone's writings I have come to the conclusion that he is severely mentally unstable. I feel that it is despicable for Livingstone to attack you in print like this. I was enraged when I read what he wrote and I want you to know that I feel that you are being unfairly victimized. This whole thing has made me repeatedly think of 5/22/93, the day I visited you at your home. Livingstone also writes of how it

is highly suspicious of how you acquired all the thousands of documents you have. Doesn't he know the years of hard work and lawsuits it took you to do that? I am very anxious and curious to know your side of this story and perspective of this whole Livingstone affair. If you could explain this, I'd be grateful.

I see that there will be a compiliation of Whitewash 1-4 in the bookstores in Dec.

I know that you won't like this question, but do you have any word on when your new book is coming out? I don't mean to annoy you and I won't ask you again, it is just that I am very eager to read your new work as I feel that you are the most knowledgeable authority on the assassination.

Did you see the PBS documentary, "Who was Oswald"? They showed a photo of Oswald and Ferrie in the Civil Air Patrol and this proves Posner wrong in his contention that they did not know each other. If you saw this show, I was wondering what you thought of it.

I have also bought Groden's new book, "The Killing of a President". Disagree or not with Groden's theories, this book is an impressive photographic history of the assassination. What are your thoughts on this book? Have you seen it?

In closing, I'd like to say that I hope that you and your wife are well. I've sent more clippings as I've thought they would be of interest and these recent books and allegations have me profoundly wondering what your side and perspective is. I don't mean to take up your time, it is just that I idolize your work and acheivements and it hurts me personally to see people like Livingstone libel you in print.

Sincerely,

Scott Wilson

P.S. Would it be possible for you to furnish me with Prof. Wrone's address? I'd like very much to write to him.
